SUMMARY

Growth and Marketing Strategist with 11+ years of experience driving customer acquisition, product adoption, cross-sell, lifecycle retention, and monetization across fintech and banking. Expertise in CRM-led growth, customer lifecycle management, digital marketing, and AI-driven marketing automation. Key achievements include managing a ₹1,500 crore digital revenue portfolio at Axis Bank and scaling Groww's lending business from \$5 million to \$36 million, representing 7x growth. Combines strategic thinking with strong execution across growth, marketing, analytics, and revenue initiatives, with a proven ability to build scalable customer and business growth engines.

EXPERIENCE

Ai Adoption Growth Strategist & Researcher

Bangalore, India

09/2024 - Present

Built and shipped AI infrastructure that translates directly into growth automation, retention intelligence, and campaign optimisation — demonstrating the ability to design, build, and deploy AI-led growth systems, not just direct them.

- A3M Router — 25K+ npm downloads, 62% cost savings, and #1 RouterArena cost-efficiency. Open-source LLM gateway routing 47+ providers via parallel ensemble voting. Ships TypeScript and Python SDKs, REST API, semantic caching, and hard budget enforcement. D2C use case: Auto-routes growth queries to the cheapest capable model for campaign personalization, content creation, and segmentation at scale.
- OmniClaw — Multi-agent orchestrator with container isolation, scheduled tasks, and web UI. Multi-channel AI system across WhatsApp, Discord, Telegram, Slack with Hindi, Bengali, and Hinglish support. Deployed on GCP with Docker isolation, persistent memory, and cross-agent messaging. D2C use case: Cart recovery, EMI reminders, post-purchase journeys, and service escalation from one AI layer, improving retention without adding headcount.
- ChuckleNet — Fine-tuned transformer for pre-distribution content resonance. Trained on 120,000+ audience responses; ^{78.50%} validation F1 with XLM-R + WavLM multimodal fusion. D2C use case: Scores ad copy, WhatsApp messages, and campaign creatives before media spend, cutting wasted acquisition budget.

Orange Health Labs

Bangalore, India
